

In this March issue newsletter you will see that we have continued to develop our electronics and tried to simplify information wherever possible. Health issues are often complex and mystifying when couched in scientific language.

NEXT BECKS TRAINING DAY 19th April 2008 BOOK NOW

The Becks Training Day will be held on 19th April. The last training day was a huge success with people from all backgrounds who came along to find out more about the most effective ways to use the Becks Protocol. You can earn money as a Becks therapist. There are very few of us. For information on how I work as a Becks therapist check out my web site : www.chris-hyslop.com

ECZEMA/PSORIASIS CREAM.

For many years we have made high strength GLA cream (Gamma Linoleic Acid). However, we are constantly being asked about it's usage, so we have changed it's name. It is fantastically effective at helping Eczema and Psoriasis and is completely safe even for babies. As far as we know we are the only people to making this cream. You can find it on the web site under Hand Made Creams. Code 5518 60ml £6.00

New Product

Colloidal silver Maker CST2, Model 8a.

Last month we told you about the new Becks Silver/Zapper with low power consumption. We have been applying the same principles to the Colloidal Silver maker CST2. However, we have been able to go even further with the CST2. We have reduced power consumption of the electronics and we have also changed the battery test circuit. This means you should get **twice** as much use out of one battery. Also, the new battery low level warning light comes on very brightly when the battery is running low.

We have managed to do all this without any price increases. Remember the CST2 also comes with a FREE battery and a FREE pair of silver electrodes (80mm). Code 5110 cost £75.50

New - low battery light

C diff death rates up by 70%, Prevention is better than cure.

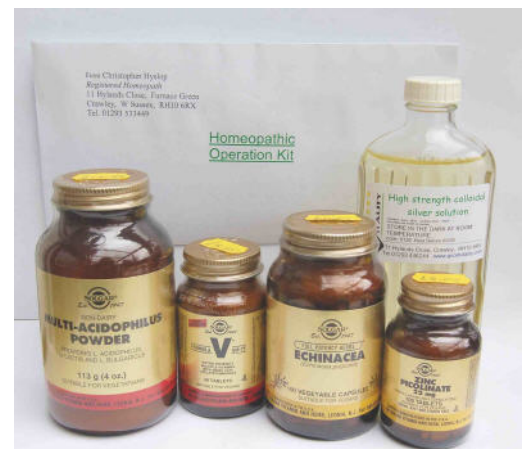

This is really now becoming a big problem and if you, or anyone you know, is going into hospital for any kind of operation they would be wise to use the preoperation kit. The details are briefly set out below, but you can get full details or buy on line at www.goodvitality.com. The idea of the pre-operation kit is to help prevent you from getting C diff or MRSA. It may seem expensive, but if it saves your life or even just shortens the time you spend in hospital it is surely worth every penny! If you are in any doubt about this just ask someone who has suffered from C diff in a hospital - it is not only very uncomfortable, but also very embarrassing!

About to have an operation?

These are the steps I would take if I were about to have an operation and was **concerned about MRSA and Clostridium difficile**.

1. Probiotic, protect guts from C diff.
2. Echinacea, make White Cells more aggressive.
3. Zinc. Stimulates thymus to make T cells.
4. A good multivitamin and mineral, to help cell production
5. Colloidal silver. To help kill off invaders.
6. Homeopathic Operation Kit, to help recovery.

This is now available as a kit, bought separately would cost £67.34, **SAVE 20%** when you buy the complete kit.

More information can be found on:-

MAGNETIC PULSER HELPS HEADACHES

In my late 50's I started to get very bad headaches I went to the doctor and was sent for an X ray of the top of my spine. I was told it was showing signs of wear and tear and that there was nothing that could be done as it was part of ageing. As the years went by I was having headaches more frequently, which seemed to last about three days, leaving me feeling nauseous and unwell.

I decided to make an appointment with Chris to see if he could help. On the day of the appointment I had a very bad headache and after questioning me he said the top of my spine was inflamed and suggested he use the Magnetic Pulser on my spine. I had to lie down on a hard surface supporting my head on two books and bend my legs up to my bottom. He gently stretched my neck and at the same time he used the Magnetic Pulser every 15 minutes. I was absolutely amazed at the result Chris said that the Magnetic Pulser had done most of the work by bringing down the inflammation, and I can honestly say my headache went within the hour.

Anti Depressants don't work!!! Here is a great alternative.

In a recent Study by Professor Kirsch it was demonstrated that anti-depressants like Prozac were no more effective than a placebo! Well there are some very good natural alternatives that have been proven to work. The first one that most people think of is St Johns wort. However that is really for treating anxiety. A much better anti depressant is Rhodiola. This herb comes from Siberia and has the following properties.

A) ADAPTOGENIC

Rhodiola increases tolerance to various stressors (e.g. mental, physical, environmental).

B) ANTI-DEPRESSANT

Rhodiola's role in aiding depression is due to various factors. Active compounds in this herb (e.g. rosavin and salidroside) enhance the transport of serotonin precursors (tryptophan and 5-HTP) into the brain, and through an MAO/COMT inhibiting effect these compounds also reduce the degradation of mood-elevating neurotransmitters. With respect to serotonin, the studies show a 30% increase of levels in the brain. As stress accelerates the destruction of mood-boosting neurotransmitters, the adaptogenic effects of Rhodiola would be of additional value.

C) MENTAL ENHANCER

Rhodiola intake may also boost learning and memory skills. Improvements have been shown even after 10 days treatment with Rhodiola extract.

D) MALE SEXUAL TONIC

Rhodiola has traditionally been used as a tonic to enhance male sexual function.

E) IMMUNE SUPPORTIVE

Research suggests that Rhodiola's benefits extends to the immune system - a factor that combines especially well with its adaptogenic activity. Not surprisingly, it has been reported that Rhodiola is particularly effective in aiding recovery after viral infection.

F) ANTIOXIDANT

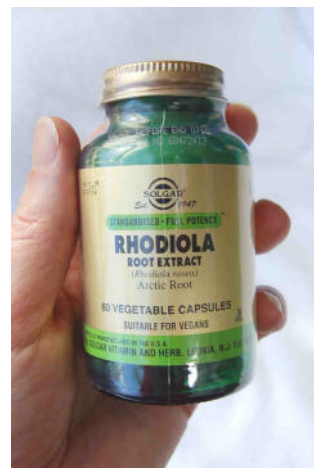

Potential applications of Rhodiola
stress (mental, physical, environmental)
chronic fatigue (e.g. ME)
depressant
anxiety
impotence
general mental enhancement
poor memory
convalescence after illness
Protection against free radicals

How to take Rhodiola:-

Take up to three capsules per day away from food. i.e. between meals and at bedtime.

Cost:-

60 Vegicaps £16.55

I have NEVER seen any side effects from Rhodiola and have successfully treated suicidal patients with it!

We need your help to help others!

If you have benefited from Colloidal Silver we need your help!

We would like to compose a set of video testimonials on the benefits of Colloidal silver. The idea is that we can show that Colloidal Silver is very effective at treating a whole range of complaints, as well as being very safe.

If you would be willing to provide a video testimonial please contact us. We should be able to do this remotely via MSN or we can even send a mini video cam for you to do your own recording. Its very easy to use and you will be on u tube!!

Please contact Chris on 01293 446244.

FREE i lift offer worth £14.95

We would like to promote i lift by offering it FREE when you buy two large pots of D101.

i lift is preservative free and will produce a temporary skin lift by tightening the skin as it dries. The effect can last 4 to 8 hours. D101 collagen repair cream has been a great success and when used for 12 weeks reduces fine line and wrinkles by 50%. This trial was carried out by us. It was not biased and had more participants than those used by famous manufacturers.

A simple way to judge the effectiveness of a product like this is how many people re buy the product. They will only re buy, it if it works, and a large percentage of our customers re buy D101.

The product code for the offer is 5541 cost £31.00 plus P&P (normal RRP = £45.95)

Making yellow colloidal silver DVD.

We now supply a DVD of the Colloidal Silver making lecture (taken from the Becks training day). The u tube version is a 10min extract from the lecture.

You can buy the DVD for just £10 (plus P&P). It will answer most of your technical questions from the grades of water, to the different types of Colloidal Silver and the various methods of taking them. You will actually see yellow colloidal silver being made in just 30mins using nothing more than an ordinary glass of purified water and CST2 silver maker. You can see just how easy it really is to make

Dental surgery

If it is necessary for you to have dental surgery, it is worth using our Homeopathic Operation Kit.

Many of our patients at the Clinic here in Sussex (see www.chris-hyslop.com) have used the operation kit and report fantastic results, both in terms of the pain and recovery.

Mrs A reports, "my wisdom tooth was removed, I had hardly any pain after and the bruising disappeared so quickly, it was amazing even my dentist was impressed".

The kit is aimed not only at major surgery, but also, any minor surgery and comes with full instructions,. It is very simple to use.

The kit is very cheap at £4 and can easily be purchased on line at www.goodvitality.com
