

DEAR CUSTOMERS

In This Issue:

Welcome to our October newsletter update. In this issue we will be offering you advice on what you can do to help combat swine flu and cold sores. We also have some money saving offers on our Colloidal Silver Maker and Colloidal Silver Spray.

Swine Flu

WHY IS SWINE FLU GOING TO BE A PROBLEM?

The answer is simple. Firstly, as the weather turns damp the virus can survive far longer. Secondly, we tend to hide indoors in a sealed environment also in confined spaces like tube trains, buses etc., where the flu virus that has been liberated in the air is re-circulated and it is then that it infects us. These are exactly the conditions that spread an airborne infectious agent. So where you can, stay out of such environments, if I was exposed to such conditions especially if someone was coughing and spluttering I would spray Colloidal Silver into my throat and nose. There is more information on defending yourself from swine flu on www.comsci.org.uk.

New Pocket Size Colloidal Silver Spray

Due the increased demand and popularity of our Colloidal Silver Spray, we have been asked to produce a pocket size version of our High Strength Colloidal Silver. The spray contains 15ml of High Strength Colloidal Silver and is enough for 110 doses. Great for spraying after exposure from potential swine flu sufferers. *Remember to carry it around with you where ever you go.* Furthermore when you have used up the spray you can top it up cheaply from one of our large bottles of High Strength Colloidal Silver ([Product Code 5124](#))

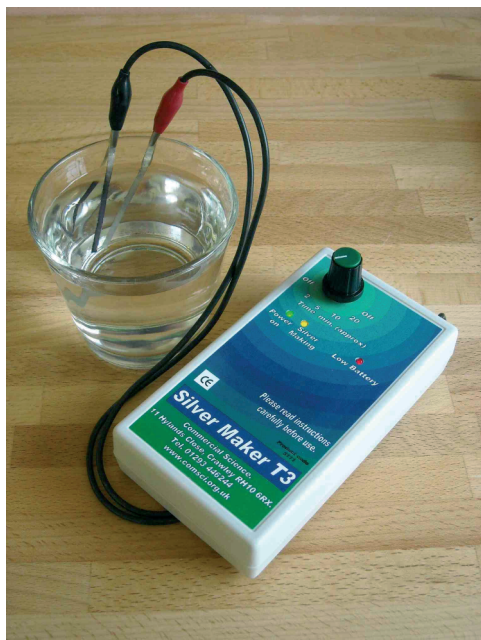

SPECIAL OFFERS

NO VAT ON COLLOIDAL SILVER MAKER

As many of you know we have been forced to register for VAT and this has put all our prices up. As a special promotion for the winter we would like

to offer our CST3 Colloidal Silver maker (see photograph below left) at the pre VAT price of £75.50 plus shipping. ([Product Code 5111](#)).

COLLOIDAL SILVER SPRAY

To help combat the effects of swine flu we are now offering **5 for the price of 4** on 50ml Colloidal Silver Spray ([Product code 5128](#))

Health Tips

On the Commercial Science website www.comsci.org.uk you will find lots of health tips. We would like to increase the number of these tips, so if you have any tip that we can pass on please let us know. They do not have to be long and complex, for example:-

Cold Sores

Several customers have reported that if you put Colloidal Silver Gel onto a cold sore as soon as you feel the familiar tingle before it appears, the sore disappears within 24 to 48 hours. Try it, let us know how you get on. It also works well on mouth ulcers.

CS Gel worked on wound

An elderly lady had an open wound at the top of her hip operation scar. She applied the gel at 2.00pm and by bedtime the wound had closed up. She continued to use it twice per day and the wound healed up completely with no signs of infection.

There are many more tips on the list. So as you can see it does not need to be long winded and we will not reveal your name, so it is completely confidential and you will be helping others.

If you send us a report and we put it on our site we will send you a free Colloidal Roll-On Deodorant.

All products can be purchased at www.goodvitality.com

Colloidal Silver Gel ([Product Code 5130](#) 30ml or [5140](#) 60ml)

Colloidal Silver Roll-On Deodorant ([Product Code 5145](#))
