

DEAR CUSTOMERS

In This Issue:

Christmas is nearly upon us so we thought we would help you with that perennial problem of what to buy someone who has everything. We have put together some suggestions that we think are original and useful at the same time.

December Promotion

All orders placed from now to the end of December will receive a free sample of our Colloidal Silver Gel. The formula was changed in September 2009 to a new clear higher quality longer lasting gel. Your chance to try it out for FREE.

This free sample can be used on any skin condition from acne to ulcers. You can even use it on mouth ulcers. It is so safe you could eat the contents. The gelling agent is a natural non animal gelling agent and is suitable for vegans.

Christmas Ideas

Usually at this time of year people are looking for alternative present ideas for their friends and family, so here are a few of our suggestions:-

1. EMF detector

This product can be very helpful at finding high density EMF (electro-magnetic fields) in your home environment. These fields can be responsible for anything from head aches, skin conditions to insomnia. So this very simple to use tester could solve a lot of your health problems. You can buy an EMF detector ([Product Code 7005](#)) at www.goodvitality.com

2. D101 Collagen repair Cream.

We have been making this cream for many years now and it has proved very successful and on occasions we have been unable to keep up with demand. It takes 4 days to make a batch of this hand made cream. We have made the active repair components as strong as possible hence the cream is quite pink in colour. Every jar of cream ordered will come with a free leaflet.

You can buy D101 Collagen Repair Cream 30ml or 60ml (Product codes 5221/5222) from www.goodvitality.com

3. Colloidal Silver Spray new 15ml size.

This is great to put in your handbag or pocket to carry around ready to use on any occasion. I use mine every time I have been near anyone coughing or sneezing – one spray in the mouth or the throat. You can buy the pocket size 15ml Colloidal Silver Spray (Product Code 5124) from www.goodvitality.com

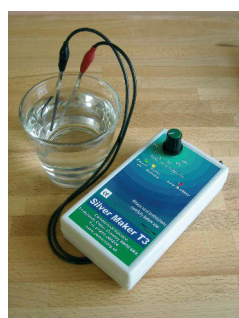

4. CS Roll on deodorant.

This deodorant contains nothing but Colloidal Silver and a gelling agent that is a natural non animal gelling agent and is suitable for vegans. It is a very gentle and safe product for those of you wishing to avoid risky chemicals or with sensitive skin. It is particularly helpful for shaving rash of the arm pit!! You can buy Colloidal Silver Deodorant (Product Code 5145) from www.goodvitality.com

5. Eczema/Psoriasis cream.

This product is very safe and gentle and will usually relieve and in some cases resolve eczema or psoriasis skin conditions. It's active component is a organic oil extracted from the borragge plant and our cream has the highest concentration of this component. You can buy GLA cream (Product Code 5518) from www.goodvitality.com

6. Colloidal Silver Maker

If you are really feeling particularly generous this Christmas you could buy a Colloidal Silver Maker for a present. The most popular model is our CST3 with in built automatic timer. It comes with a pair of pure silver electrodes (worth £10) and battery. This model is still being sold at a reduced no VAT price until the end of December a saving of £11.35. You can buy a CST3 Colloidal Silver Maker (Product Code 5110) from www.goodvitality.com

Beck's Training Day

Our next Becks Training Day will be in spring 2010. Please check the web site www.goodvitality.com for details.

We thank you for your support during 2009 and we wish all our customers a fantastic Christmas and a great New Year.
