Dear Customers

In this Issue: Our CoQ-10 cream, Aura Cleanser Screen and Frozen shoulder

CoQ-10 Cream

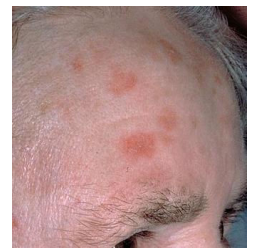

Our CoQ-10 and Vitamin E rejuvenation cream is now very popular and we are now getting some interesting reports back on its use.

As you already know it has been reported by a lot of customers to help with Actinic Keratosis; this is where the skin becomes rough and flaky and is a pre-cancerous condition. Customers have reported that using the cream has resolved this sun damage condition.

Here are a couple of interesting reports from customers.

1. "I did not like the CoQ-10 and Vitamin E cream because it was dry and not at all moisturising". Answer. Sorry we should make it clear it is NOT a moisturising cream, after using the cream you should feel the skin is dryish after a while and should feel a bit tighter!! If you want a good moisturiser which also reduces inflammation try our very good GLA cream.

[Go to GoodVitality.com](http://GoodVitality.com) and search for code 5518 to buy our GLA Cream

2. "My Osteopath said to me what pretty eyes you have; I have never noticed them before". This particular customer had been applying the cream to her upper eyelids as she had very hooded eyes. The cream had reduced her hooded eyelids by firming up the skin. This is very exciting as we knew the cream would help repair the skin but we did not expect it to make it look younger too!!!

So if you have your free sample try it around your eyes. By the way the free samples of this cream is ending soon as we will be replacing it with another free gift!!

[Go to GoodVitality.com](http://GoodVitality.com) and search for code 5540 to buy CoQ-10 + Vit E Cream

Aura Cleanser Screen Material

We are very sorry for the delay in providing the new material; the supplier has sent us the wrong grade of material. So we had to wait for them to collect the old material and replace it with the correct grade.

If you would like a sample of this new screen material please ask for a free sample when you next place an order.

[Go to GoodVitality.com](https://www.goodvitality.com) and search for code 5321 to buy Aura Cleanser Screen

Frozen Shoulder

One of our customers has reported using his Becks Zapper to treat his frozen shoulder. He put one whole biotab on each side of his shoulder joint and Zapped himself 30 minutes a day. His joint started to improve and after 10 weeks it was gone.

Frozen shoulders typically last 1 to 2 years!!

This is obviously not the way the Becks Zapper was intended to be used, however we thought you might find it of interest.
